

Compliance Update COVID-19 Vaccination

January 14, 2021

Now that there are COVID-19 vaccines available, many of you have asked what it will cost. Provided the primary purpose of a patient's visit is to receive a COVID-19 vaccine, your plan will cover the vaccine, administrative services, and the office visit with no cost-share to you or your family members who are covered under the plan.

Should the provider visit include health services unrelated to COVID-19, there may be separate charges. See your plan document for details on coverage for other services.

If you have additional questions, please contact Customer Service at 614-766-5800.
