

## Bloom-Carroll Local School District

---

### Chromebook Damage/Loss Program

The educational program at your student's school includes a Chromebook that will be issued to your student for their use at school and at home. We are very excited to be able to make these powerful tools available to our students. We also understand that both students and parents are concerned about keeping these tools secure and in good working order.

The district has developed a Chromebook Damage/Loss Program as a way for families to reduce the financial risk if a Chromebook is accidentally damaged, stolen, vandalized or lost. Participation in this program is completely voluntary.

**COVERAGE AND BENEFIT:** This program covers the Chromebook loaned to the student against all accidental damage, theft, vandalism or loss for one (1) school year. This program does NOT cover damage or loss of the power cord. This program does NOT cover intentional misuse, abuse or neglect by any household members. If the student did not exercise proper care and/or take appropriate precautions, and this behavior resulted in damage to or loss of the equipment, the cost of the repair or replacement will be the responsibility of the student/parent.

If the Chromebook is accidentally damaged or vandalized, it will be repaired at no cost no more than two times per school year. Insurance will be void after the second damage in one school year

*Students who withdraw or leave the Bloom-Carroll Local School District and do not return the student issued Chromebook will be subject to a fine and possibly reported to local law enforcement as having possession of a stolen device.*

**THEFT:** If the Chromebook is stolen, the Bloom-Carroll Local School District will replace the stolen Chromebook only when a police report is submitted and only for families purchasing the Damage/Loss Protection Program. Fraudulent reporting of theft will be turned over to the police for investigation. A student making a false report will also be subject to disciplinary action.

**LOSS:** If the Chromebook is lost, the district will reduce the replacement cost to \$100 for the first loss if the Damage/Loss Protection Program has been purchased. Upon payment, the student will be issued a replacement Chromebook. However, the parent will not be eligible to enroll in this program for a second time in the same school year and will be fully responsible for replacement or repair costs associated with this second Chromebook.

In the event that the lost or stolen Chromebook is recovered in working condition, the deductible will be refunded after the lost Chromebook is returned.

**Loaner Chromebooks:** Students who have purchased the insurance plan will be provided a loaner Chromebook until their Chromebook has been repaired. Students who have not purchased insurance will receive a loaner Chromebook only after their fine for repair has been paid in full. Loaner Chromebooks will be issued on a first come, first serve basis, and they will not be able to be taken out of the building.

**Important Deadline:** Chromebook insurance must be paid in full by November 6, 2020, in order to be in effect for any damages that occur prior to this date. Insurance may be purchased after this date, however, damages will only be covered from the date of purchase forward.

**If you choose not to enroll in the Chromebook Damage/Loss Program, you will be responsible for the full cost of repair due to damage or replacement of the Chromebook.**
